

## To change the system language in Blackboard

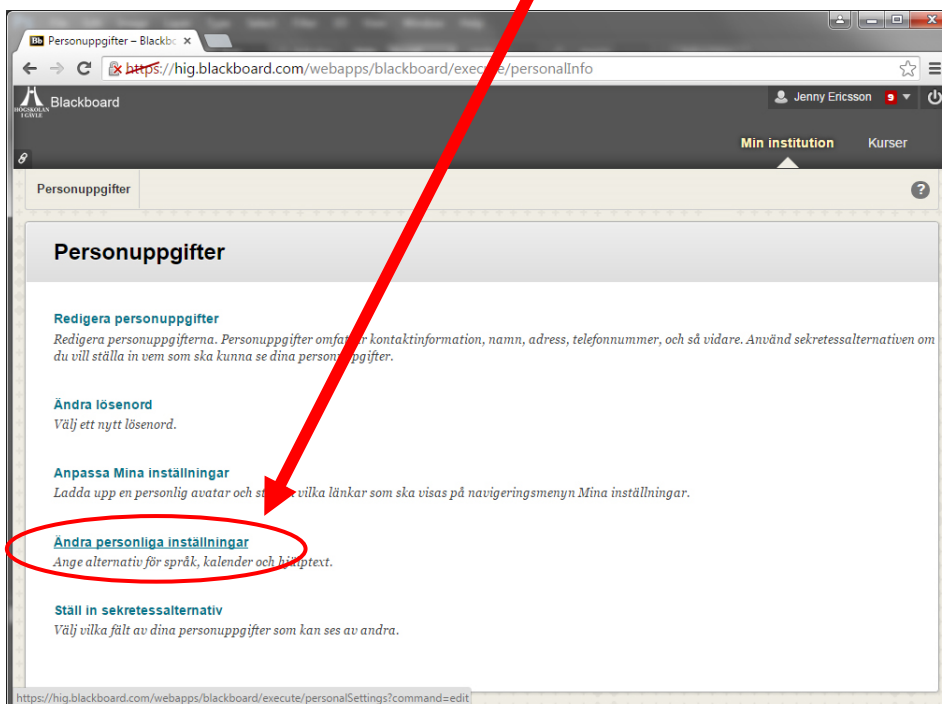

Swedish is the default system language in Blackboard. To change this to English, you need to login first and then change the personal settings after.

1. After login, go to the global navigation menu in the upper right corner.

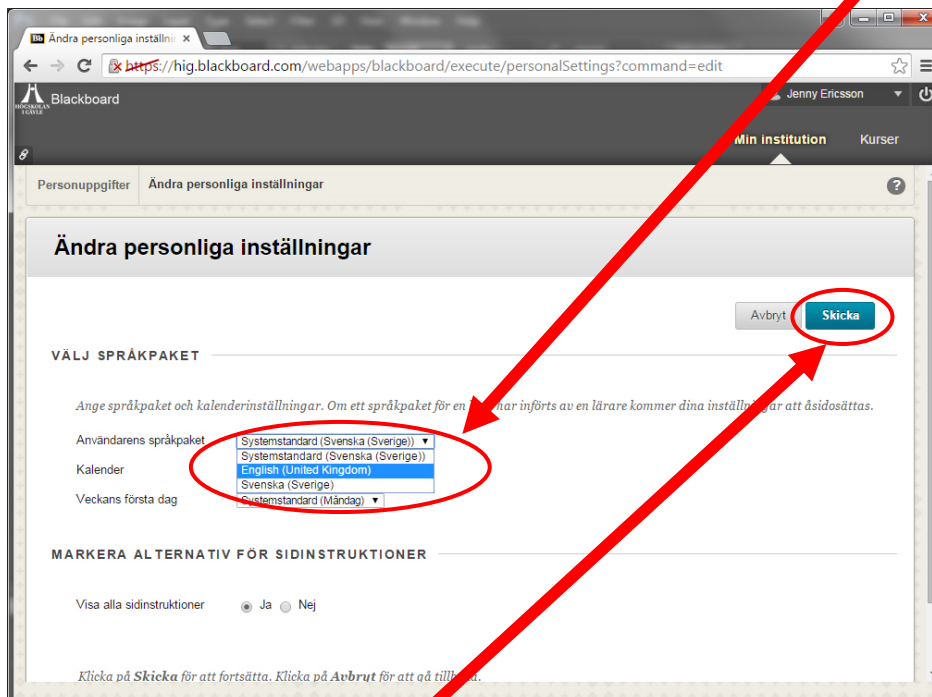

2. Click on the word "Personuppgifter"

3. Click "Ändra personliga inställningar"

4. Change the dropdown menu at “Användarens språkpaket” to English.

5. Click the button “Skicka”.

Done!

The system language should now be changed to English.
