Diversity Challenge 2013

Internship – Marine & Diesel Equipment

You will be working for six months at the Marine & Diesel Equipment segment. This segment develops and drives the business of the traditional Alfa Laval technologies to the marine industry as well as the Alfa Laval and Aalborg portfolio to the Diesel Power Industry. The segment is divided into 3 market units: MU Marine Energy, MU Marine Environment and MU Diesel Power.

Your work tasks will mainly be to create structure within our internal communication system and find ways to communicate information about complicated processes in an easy and accessible way.

More specifically, your work tasks will be to:

- Plan, develop and implement improved ways of working with claim coordination in segment in a process oriented way.
- To structure our Business Management System according to ISO 9001 into our internal communication tool Share and make sure that information is easily understood.
- Create a clear and logical structure of information for our Sales Companies and present this in an easily accessible way.

The position is full time with a start date preferably in the middle of February or beginning of March 2013. This is a paid internship.

Your profile

You are most likely an engineering student with a focus towards communication. You have a technical knowledge and interest and with an ability to deliver/communicate information about our processes in an easy accessible way.

You are open-minded with good communication skills, analytical, thrive on defining problems and finding appropriate solutions to solve them.

In addition we see that the right candidate is:

- Familiar with process oriented way of thinking
- Structured and skilled at presenting via internal communication tools
- Knowledgeable with improvement tools such as Six Sigma and DMAIC
- Competent with taking in existing procedures and working with change management
- Writes and speaks English fluently
- Experienced working with Microsoft Office
- MSc
- Previous work experience is a preference

As the internship is a part of the diversity program through Diversity Challenge, we welcome candidates with a multicultural background or experiences.

Application:

Apply as soon as possible, but no later than November 30th, on www.diversitychallenge.se. For questions you are welcome to contact Erika Wideqvist (+46 8 555 15 731) at Academic Search who is responsible for the recruitment.

For more information about Alfa Laval, visit www.alfalaval.se.

Academic Search established Diversity Challenge in the fall of 2005 and will celebrate its eight year with the upcoming program starting this fall! The most important purpose of this program is to increase the level of diversity within the business environment and to offer talented graduates a valuable working experience at some of the most inspiring and interesting companies in Sweden.
