Diversity Challenge 2013

Internship – Steelwork & Utility

Actions speak louder than words. At Alfa Laval, we are every single day contributing to a more sustainable future for our planet through engineering innovation. Our global team designs and implements the refining, recycling and purifying processes that allow our customers to be better themselves. You'll find our work in leading applications for water purification, clean energy, food production, waste processing, pharmaceutical development and much, much more.

The people of Alfa Laval enjoy the freedom to pursue ideas, and the resources to see those ideas become reality, in an environment that welcomes drive, courage and diversity. The result is a company where we all can be very proud of what we do.

Alfa Laval has about 16 000 employees in more than 50 countries and works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

The internship

This internship is placed at the business and marketing organization that centrally supports, manages and coordinates all sales projects coming from local sales companies on chemical applications involving HSS (High Speed Separator). A part of your responsibilities includes launching, marketing, claims handling, price leveling, competitiveness and process design.

You will be working with creating a complete sales tool for sizing machines that is easy to understand even for someone whom may not be an expert in the area. In addition, you will be creating and assembling sales leaflets, case stories and process descriptions in a graphical presentation package that will be used for sales work.

This position is full time for a period of 3-6 months with a start date preferably in the middle of February/beginning of March 2013. This is a paid internship.

Your profile

You are most likely an engineering student with a focus on industrial management, economics or sales management with experience of business climate around the world.

You are a business savvy, a creative thinker and above all possess technical interests and skills.

Experience

- IT-knowledge is of great importance
- Excel, SQL (or other database languages) combined with experience of graphic handling tools
- Knowledge of steelwork or factory utility a plus
- Fluent in English

As the internship is a part of the diversity program within Diversity Challenge, we encourage applicants with a multicultural background and experiences to apply.

Application:

Apply as soon as possible, but no later than November 30th, on www.diversitychallenge.se. For questions you are welcome to contact Erika Wideqvist (+46 8 555 15 731) at Academic Search who is responsible for the recruitment.

For more information about Alfa Laval, visit www.alfalaval.se.

Academic Search established Diversity Challenge in the fall of 2005 and will celebrate its eight year with the upcoming program starting this fall! The most important purpose of this program is to increase the level of diversity within the business environment and to offer talented graduates a valuable working experience at some of the most inspiring and interesting companies in Sweden.
